

Proof of Participation
Galaxy Training Academy 2026

YIMGA WANDJI KEVIN L'AGNEAU

has completed modules from the
Transcriptomics Track

This course was organised
by the Galaxy Training
Network, in collaboration
with:

- the Galaxy Project
- Galaxy Europe,
- Galaxy Australia
and the Australian
BioCommons
- TACC.

Instruction provided by our global
instructor community of Galaxy

The course consisted of a week
of online, asynchronous
training which enabled
participants to work at their
own pace and on their own
schedule. The workshops
consisted of a blend of
seminars and hands-on
practical work.
Each track lasts 3 days.

The Training Academy Organizing Team

Completed Tutorials

- **Introduction to Transcriptomics**
- **Reference-based RNA-Seq data analysis**
- **Visualization of RNA-Seq results with Volcano Plot**
- **Genome-wide alternative splicing analysis**
- **Long non-coding RNAs (lncRNAs) annotation with FEELnc**
